ORBITZ CONSULTING LTD THE MARKET

THE INVESTMENT MARKET

THE INVESTMENT MARKET

The Investment Market is spread across three core landscape for us. We cover the cryptocurrency market, the stock market, and the digital assets market. These markets allow us diversify on behalf of our clients, thereby providing a huge advantage and suppressed risk index for our assets.

CRYPTO MARKET

The Cryptocurrencies market is currently capped at \$321,433,521,256, and is still rising. This market has been at an all time high since 2009, and is only bound to go higher.

Cryptocurrencies alone bring nearly 43.7% of our investors' ROI.

STOCK MARKET

The total stock market value is \$85 trillion USD. This is an incredible increase of 320% since 2009. The stock market, also known as share market or equity market, is a fundamental component of a free-market economy. We have consistently made great profits for our investors in this market.
